

# FOOT ULTRASOUND

Name:

Sonographer:

Relevant clinical history:

Insidious onset: Yes / No

Trauma: Yes / No

.....  
.....

**FOOT:                    RIGHT / LEFT**

**2<sup>nd</sup> MTP**            Degenerative changes            Yes / No .....

                          Plantar plate tear                    Yes / No    Partial / Full thickness Medial / Central / Lateral

                          Instability                            Yes / No .....

                          Effusion                                Yes / No            Mild / Moderate / Severe

                          Synovitis                                Yes / No            Mild / Moderate / Severe

**2<sup>nd</sup> Intermetatarsal space**

                          Bursitis                                Yes / No .....

                          Neuroma                                Yes / No .....

**3<sup>rd</sup> MTP**

                          Degenerative changes            Yes / No .....

                          Plantar plate tear                    Yes / No    Partial / Full thickness Medial / Central / Lateral

                          Instability                            Yes / No .....

                          Effusion                                Yes / No            Mild / Moderate / Severe

                          Synovitis                                Yes / No            Mild / Moderate / Severe

**3<sup>rd</sup> Intermetatarsal space**

                          Bursitis                                Yes / No .....

                          Neuroma                                Yes / No .....

**4<sup>th</sup> MTP**

                          Degenerative changes            Yes / No .....

                          Plantar plate tear                    Yes / No    Partial / Full thickness Medial / Central / Lateral

                          Instability                            Yes / No .....

                          Effusion                                Yes / No            Mild / Moderate / Severe

                          Synovitis                                Yes / No            Mild / Moderate / Severe

**4<sup>th</sup> Intermetatarsal space**

                          Bursitis                                Yes / No .....

                          Neuroma                                Yes / No .....
